

# OTA Application Installation

BUILT **TOUGH** MADE *SMART*™

---

# Introduction

---

If your Cat® B15 device displays “Network connection failed” when checking for new software updates when in a good data signal area, please follow the outlined steps to download and install the OTA (Over The Air) Application named “GoogleOta.apk” available from the Cat® phones website.

Once the OTA Application is installed, you should be able to check for and download new software updates to your Cat® B15 device when in a good data signal area.

# Downloading OTA Application Installation and Cat® B15 Setting Preparation

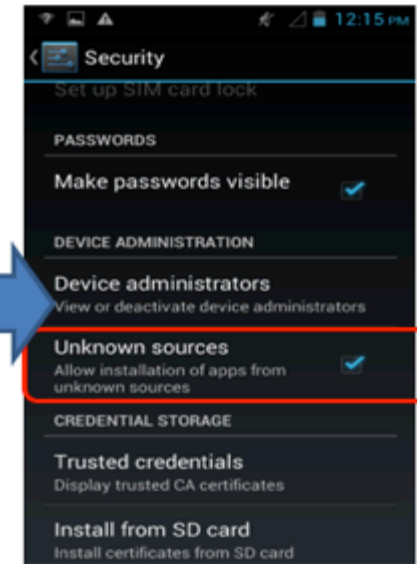

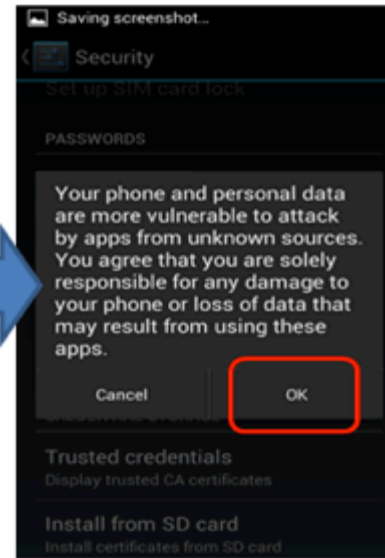

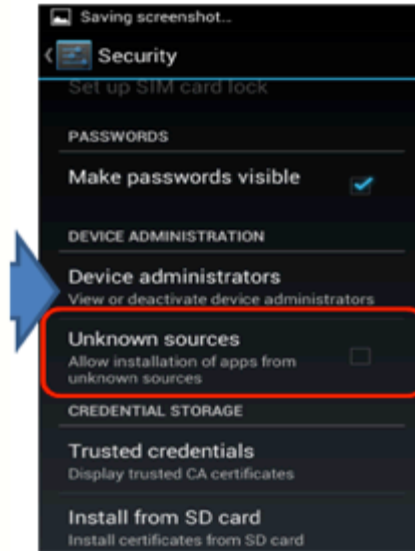

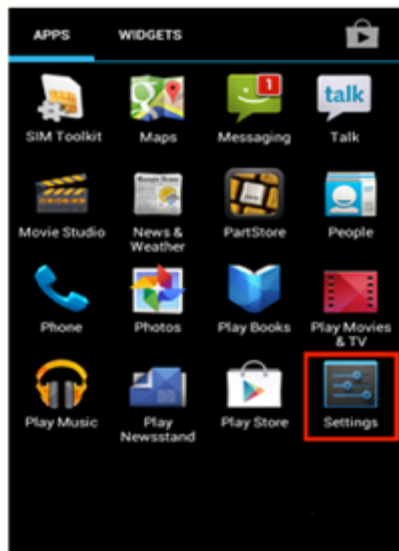

Download the “GoogleOta.apk” on your PC from the [www.catphones.com](http://www.catphones.com) website under the Cat® B15 Support: “Drivers and Updates” section.

Before installing the “GoogleOta.apk”, you will need to make sure the Cat® B15 settings will allow the installation of the “.apk” file type.

This can be done from “Settings” > “Security” menus.

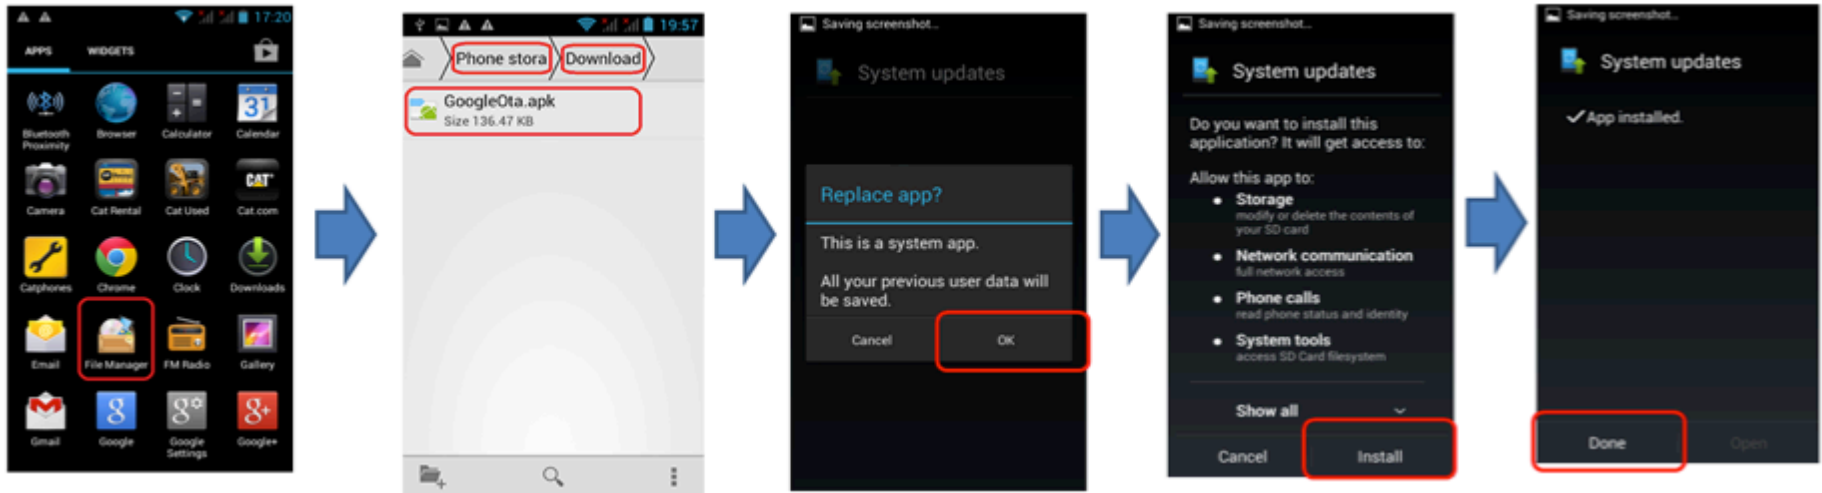

Please follow the steps outlined below to ensure the install can take place.

# Installing the OTA Application on the Cat® B15

1. Connect the Cat® B15 to your PC via USB cable and select “Turn on USB storage”. Copy the “GoogleOta.apk” file from your PC to the “Downloads” folder in the Cat® B15. Once copied, select “Turn off USB storage” and disconnect the Cat® B15 from your PC and follow the steps below to install the “GoogleOta.apk”.
2. Use the “File manager” application on the Cat® B15 to navigate to “Phone storage” > “Download” tab to select “GoogleOta.apk”.
3. A pop-up window may appear asking to “Complete Action Using”, please select “Package Installer”.
4. You will be asked to confirm whether you want to “Replace app?”. Confirm “OK”, followed by “Install” to update the “GoogleOta.apk”.
5. Once the “GoogleOta.apk” is installed select “Done” to complete the process.

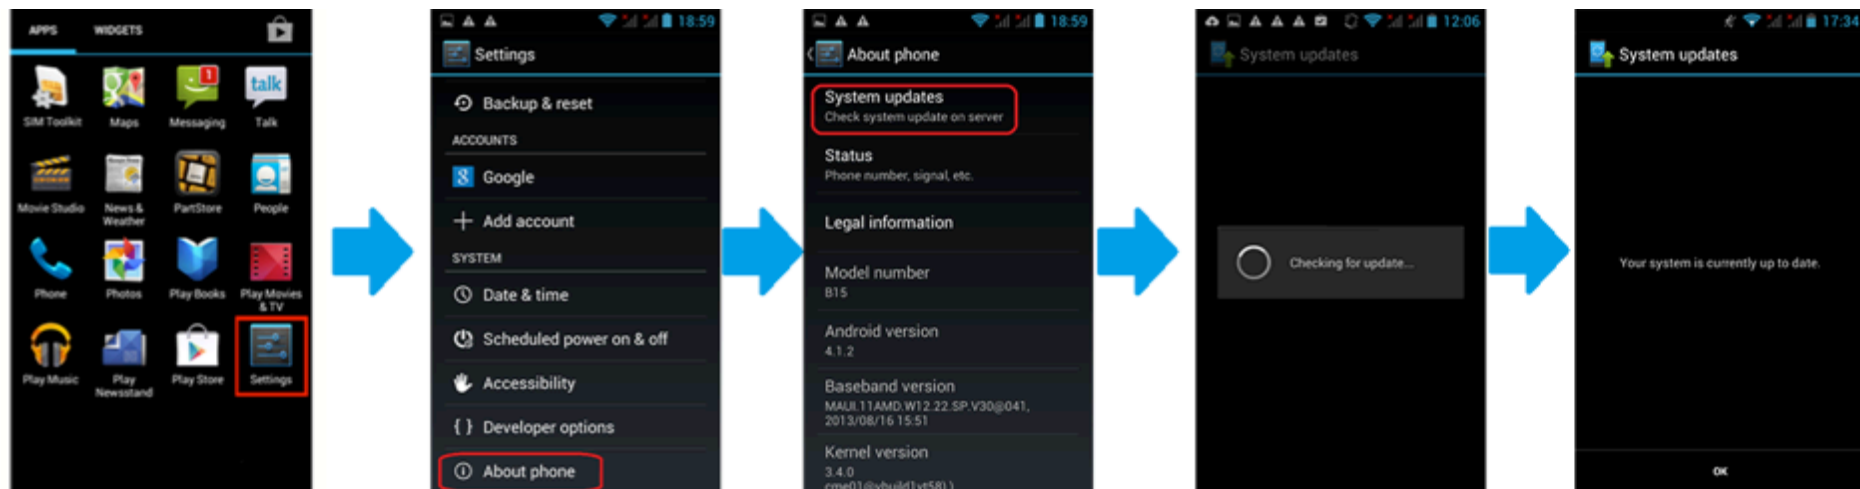

# Installing the OTA Application on the Cat® B15

Once the “GoogleOta.apk” is installed in the device, the Cat® B15 will be able to check for software updates and download them if available.

Please follow the steps outlined below to check for available software updates.

## Note:

The installed OTA Application filename “GoogleOta.apk” will be deleted if the device is “Factory Reset” before receiving the available software update.

THANK YOU
